SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Applicant hereby brings to the Examiner's attention the references listed on the accompanying form PTO-1449. Copies of all listed references are attached.

Reference D0 is a copy of an opposition filed by Novartis AG against European patent EP1347787B1 (Reference D00), which corresponds to the above-referenced U.S. patent application but includes different claims from those pending in the above-referenced U.S. patent application.

References D0 and D00 do not constitute prior art. Reference D0 is submitted to provide an English explanation of the relevance, if any, of German language references D1, D2, D3, D4, D7, and D8, and reference D00 is submitted to provide the claims against which the English explanation is directed.

References D4, D7, and D8 are directly addressed in Reference D0 at pages 12-13 (D4) and 17-20 (D7 and D8). Reference D4 is a datasheet for a product named SICCAPROTECT Augentropfen. German language references D1-D3, which were filed as part of another opposition against EP1347787, also concern SICCAPROTECT products, so a discussion of their relevance, if any, is also provided by D0.

English translations are attached to each of the German language references.

Either the entire reference is translated, or portions which were relied upon in the opposition proceedings, and hence caused the references to be listed here, are translated.

Please charge any required fees to Deposit Account No. 06-1448, ref. BAY-001.01.

Respectfully submitted,
